PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY

REGINA :
JOHN A. REID, GOVERNMENT PRINTER
1905

GOVERNMENT OF THE NORTH-WEST TERRITORIES OF CANADA.

DEPARTMENT OF THE TERRITORIAL SECRETARY.

REGINA, *August 31, 1905.*

To His Honour,

AMÉDÉE EMMANUEL FORGET,

Lieutenant Governor of the North-West Territories.

SIR,—

I have the honour to submit herewith the Report of the Department of the Territorial Secretary for the twenty months ending August 31st, 1905.

I have the honour to be, Sir,

Your obedient servant,

G. H. V. BULYEA,

Territorial Secretary.

TERRITORIAL SECRETARY'S DEPARTMENT.

REGINA, August 31, 1905.

The HON. G. H. V. BULYEA,
Territorial Secretary,
Regina.

SIR,—

I have the honour to submit herewith my report for the twenty months ended 31st August, 1905.

As a natural consequence of the increase of population and progress throughout the North-West Territories increased activity is visible in every branch of this department and this is possibly best exemplified by a comparison of its revenue since 1900.

	1900	1901	1902	1903	1904
Companies incorporated.	\$ 300.00	\$ 1,486.00	\$ 3,765.45	\$ 3,634.25	\$ 4,668.95
Foreign companies registered	1,240.00	13,910.00	6,814.25	7,119.60	6,810.00
Mutual fire insurance co's.				10.00	20.00
Mutual hail insurance co's.		60.00			
Notices in gazette				645.00	795.00
Marriage licences.			1,925.00	2,456.00	3,233.00
Auctioneer's licences.			445.00	620.00	725.00
Pedler's licences.			325.00	750.00	725.00
Veterinary surgeons' licences	15.00	25.00	30.00	40.00	195.00
Certificates of appointments.	5.70	35.70	48.00	73.00	78.00
	\$1,560.79	\$15,516.00	\$13,352.70	\$15,347.85	\$17,249.95

As the duties of the Registrar of Joint Stock Companies are almost entirely distinct from those of the Territorial Secretary, I have deemed it better for the sake of reference to make the reports also distinct.

The various Ordinances administered by your department are under separate heads.

CERTIFICATES UNDER TERRITORIAL SEAL.

Seventy-eight certificates under the seal of the department were issued this year confirming the appointments of those holding commissions to take affidavits to be used in courts of justice either in the Territories or elsewhere. Some trouble has from time to time arisen as to the wording of these certificates when required for use in some of the states of the union owing to impossibility of complying with their requirements in respect to certifying to the signatures of notaries public and others living hundreds of miles from the capital. In most cases our certificates have in the end been accepted. Seventy-five certificates were issued between first of January and thirty-first of August, 1905.

MARRIAGE LICENCES.

The revenue from the sale of marriage licences has increased \$777.00 or by some 260 marriages over the previous year and as the population of the Territories increases the number of licences will increase proportionately. The number of licences issued is no indication of the actual

number of marriages which have taken place as a large number are married by banns. The services of the special marriage commissioners have not, to my knowledge, been called in requisition. Sixteen hundred and eighty marriage licences were sold in the eight months of 1905 the Territories was in existence or considerably more than during the whole of 1904.

AUCTIONEER AND PEDLER LICENCES.

There has been an increase in the number of auctioneer licences granted in 1904 while those issued to pedlers remain practically the same. Thanks to the co-operation of the police the number of pedlers who took out licences up to the 31st of August increased by more than a third the number licensed the previous year.

LICENCES TO PRACTICE VETERINARY SURGERY.

At the session of the Legislative Assembly 1903, considerable amendment was made in the Ordinance respecting Veterinary Surgeons. Certain graduates from the United States were permitted to practice here and the fee was increased from five to fifteen dollars. The additional expense of obtaining a licence has evidently been no bar to those desiring to practice their profession in the Territories as the number registered has been largely in excess of any previous year and will prove a great boon to farmers and stock raisers throughout the country. Seven more veterinary surgeons became licensed during the first eight months of 1905 than were registered in 1904 and I believe they have now organised themselves with the intention of seeking legislation that will render them a self governing body.

CEMETERIES.

Several new cemetery companies have been incorporated during the period covered by this report. The names will be found in the appendix.

LIBRARY.

In the appendix will be found a list of books added during the year. It is difficult to make an extensive showing in this respect but the amount voted for this purpose has been stretched as far as possible by purchasing, whenever practicable, the needed volumes second hand.

Several volumes belonging to the late Sir John A. Macdonald were purchased to complete the Debates of the Legislature and Parliament of the Province of Canada, the House of Commons of Canada and the Statutes of Canada.

The Debates of the Parliament of Canada are, I am informed, unique. The earliest years—from 1858 to 1870—are in the form of clippings and are without a break. After 1870 the printed volumes began.

I have to acknowledge the extreme courtesy of the Smithsonian Institute at Washington in forwarding its various and much valued publications.

The present unavoidable arrangement under which the library is still situated in the old Government Buildings has many and obvious

disadvantages. There is no responsible person in charge there to register the volumes borrowed, consequently this valuable library remains closed. No fire is kept up during the winter and the books suffer from the frost. It is also impossible to maintain even the semblance of systematic newspaper filing. Practically no books were bought for the Territorial library in 1905.

I have the honour to be, Sir,

Your obedient servant,

EDW. J. WRIGHT,

Deputy Territorial Secretary.

REPORT

OF THE

Registrar of Joint Stock Companies for the Years 1904-5

OFFICE OF THE REGISTRAR OF JOINT STOCK COMPANIES.
REGINA, August 31, 1905.

The HON. G. H. V. BULYEA,
Territorial Secretary.

SIR,—

I have the honour to report a large increase in the number of companies incorporated in the North-West Territories during the past twenty months. Two hundred and sixteen companies in all were incorporated during this period—one hundred and eighteen in 1904 and ninety-eight in the eight months of 1905—representing an authorised capital of \$13,325,300—\$6,160,500 of this was for 1904 and the balance \$7,164,800 of authorised capital of companies incorporated in 1905.

The provisions of the Ordinance in respect to furnishing certain returns have been fairly well complied with. As will be seen in the appendix a large number of companies have been struck off the register. A majority of these have practically been defunct for years. A few companies seeking special powers were incorporated by Ordinance. In the appendix will be found a list showing briefly the capital, incorporators and objects of the new companies.

Early in the year the Supreme Court gave decision in the Massey-Harriscase deciding that it is compulsory for all companies not incorporated in the Territories to become registered before doing business here.

It was, I believe, intended to amend The Foreign Companies Ordinance at the last session of the Legislative Assembly had time permitted. The object of the new legislation was to induce compliance with the requirements respecting registration with a view to putting all foreign companies on a similar footing so far as taxation is concerned. It is obviously unjust to those companies who voluntarily furnish the material required and pay the small fee imposed for registration that other companies in the same line of business should establish themselves here and ignore the requirements imposed by law. A list of all foreign companies registered in the Territories will be found in the appendix.

It would be well, too, in my opinion, if some uniformity could be made compulsory with respect to fraternal insurance. At present the maximum fee for those desiring to register is limited to fifty dollars, but up to the present very few societies have filed the prescribed documents. There is little doubt that the primary object in the formation of most of these societies is mutual insurance and thus a large amount of business is deflected from the line companies who pay a much larger fee for the privilege of doing business in the Territories. Some orders have registered voluntarily, some others as soon as the provisions of the Ordinance and the smallness of the registration fee was brought to their notice but a large proportion of the larger societies have as yet made no attempt to register and therefore have an advantage over the others. In most of the provinces of the Dominion some sort of registration is, I believe, required and through the principles of all such orders are more or less esoteric, the public is interested in the amount and scope of their insurance business and financial standing almost as much as with public companies. Nor do they themselves desire to shroud the extent and advantages of their system of insurance in mystery as the rates and reserve funds are often advertised and when the latter, in one instance at least, amounts to many millions

of dollars no excuse can reasonably be urged against registration on the plea of not having "gain" for their object. The time has now come when the insurance business in the Territories should be regulated by special legislation. In closing this report, so far as the North-West Territories are concerned, I have taken advantage of the opportunity to classify and arrange all companies from the first so as to render it of value as a book of reference.

I have the honour to be, Sir,

Your obedient servant,

EDWARD J. WRIGHT,
Registrar of Joint Stock Companies.
